

2012 in London

Are you ready?

As you are probably aware the Olympic Games are just around the corner. The word 'Legacy' has been one of the key driving forces of the games and as a London based club this will have a bigger meaning.

The main impact will be on 'grass-roots' participation that could, if promoted well enough, exponentially increase. The question to you and your club is;

"Are you prepared for an increase in membership?"

Many London clubs are already at capacity and looking for ways to reduce waiting lists. As a regional development team in London we are looking at supporting you in enhancing provision and catering for this demand. These initiatives include;

Club Networking Initiative

- Linking to locally based schools, clubs and leisure centres to increase provision and links and provide a structured framework in your local area

Satellite Club Development

- National tools available to support you in creating new links to your clubs, especially in schools

BG London Club Bursaries

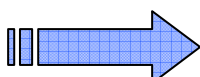

- Grants of £250, £500, £750 and £1,000 available to clubs for promotion of growth

CASC promotion

- A new 'Community Amateur Sports Club' support pack has been produced to promote savings, awareness and the benefits of becoming a CASC

Mayors Legacy – More coaches

- Up to 75% off the cost of a UKCC level 1 or 2 course, subject to volunteering hours, can still be claimed on any course starting before **31/03/2012**

Further details on all of these schemes can be found by contacting either;
